

HIGHLY DURABLE MODULAR GALLERIES

60% Lesser Cost...
80% Lesser Time...

Introducing next generation Modular Galleries that combine highly sophisticated design and the flexibility to rapidly configure from a few hundred to tens of thousands of seats.

Unlike the conventional Concrete & Steel galleries, the Alcor technology enables you to commission spectator galleries in vastly low cost & time.

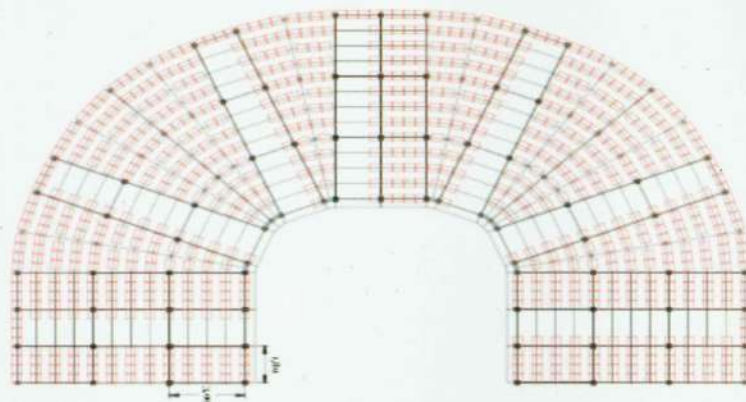

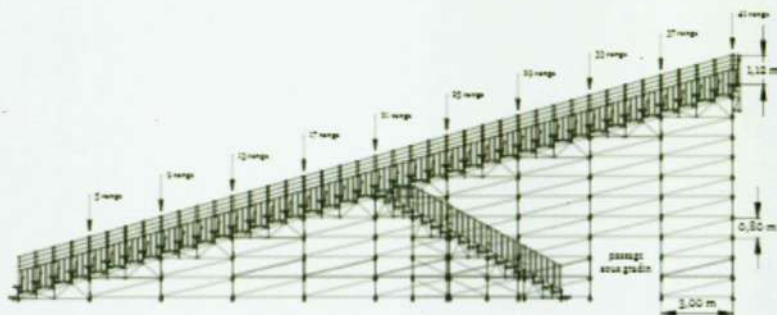

This unique design, that chiefly uses galvanized steel, passes the most stringent of tests and also allows for the underlying spaces to be used as Food courts, Gymnasiums, Admin offices, Toilets etc.

BENEFITS

- ➔ ***Modular stadiums can be permanent or relocated if required***
- ➔ ***Long lasting systems: Last very long***
- ➔ ***Quick to install: 1,000 seats per day***
- ➔ ***3 to 5 times cheaper than concrete stadiums***
- ➔ ***Environment friendly: Our galleries are made with 100% recyclable materials.***
- ➔ ***Interlocking design without nuts and bolts ensures sail proof installation.***

Alcor's Design Superiority

The design using an automated tool by alcor meets the highest safety standards & provides flexibility to configure as per the topography of the site and the preferred layout.

Each component is approved by **Socotec**
Construction Inspection Services.

Our Products meet the European standard **EN**
13200-06.

All our installers are registered and hold an
installer and **CACES Certificate**.
