

# FIELDturf®

LOOKS LIKE GRASS! FEELS LIKE GRASS! PLAYS LIKE GRASS!™

**Taking golf out of the clubs**

Golf in a private home

## Bring home your own golf course!

A respectable handicap is what every golfer strives for. Lives for. An ambition that requires dedicated practice. But, an ambition limited by restrictive hours of faraway elite clubs. Many times you might even have wistfully visualised a Putting Green of your own - at home or at office.

Now you can bring home your Putting Green. Because FieldTurf takes golf out of the clubs!

FieldTurf's artificial grass golfing surface ***"Looks like grass...Feels like grass...and Plays like grass"***! With indoor as well as outdoor Putting Greens, you can now golf round-the-clock. Be it lawns, terraces or balconies, a couple of hundred square feet or more is all that is needed to install FieldTurf Greens.

With almost no maintenance and a warranty for 7 years, FieldTurf lowers the handicap in more ways than one!

## Tee times at home and office – you earned them!

FieldTurf Putting Greens add grace to your lifestyle. Now, enjoy golfing action with family and friends, at home and at the farmhouse. Clinch an important deal at your indoor Putting Green at office and bond closely with business associates!

At hotels, resorts or clubhouses, FieldTurf's Putting Greens delight patrons who seek a complete leisure and business experience. With minimal demands on space, time and cost, FieldTurf provides all the benefits of the best-maintained natural grass greens.

### Golf around the clock

- Residences
- Farmhouses
- Club Houses
- Hotels / Resorts
- Golf Clubs & Academies
- Offices

Backyard Putting Green

Indoor Putting Green

Home Green of PGA Tour Player, John Cook

### Zero 'handicap' surfaces!

- No watering, weeding, fertilising, mowing etc
- 7 year warranty, lasts much longer
- Perennially lush green surfaces
- Can withstand desert like heat and sub zero climes
- Resists mildew, rot, degradation, microbial contamination

### Superior Technology - builds skill, boosts confidence!

Scientifically researched and patented, FieldTurf surfaces combine the biomechanical properties of natural grass with the benefits of an artificial system to perfection. While FieldTurf's 'grass' fibre (a polyethylene 'blend'), looks and behaves like the best natural grass greens, it is also engineered for intensive golfing and easily withstands the constant heavy impact of irons, woods and golf spikes. Specially designed 'bent-grass' ensures a predictable roll with no unexpected deviation or bounce and helps in building player skill and boosting confidence.

Safe, consistent and grass-class!

### Golf turf of the PGATour

Naturally, FieldTurf is the **official synthetic golf turf of the PGA TOUR and the Champions Tour!** The renowned Palmer Course Design Company recommends it as its official synthetic grass.

From the private greens of legends such as Arnold Palmer and John Cook, to the homes of many amateur golfers, FieldTurf is the fastest 'growing' artificial golfing surface across the world.

### FieldTurf – the tough golf courses

- Driving Range
- Tee Boxes
- Practice Greens
- Course Greens
- Synthetic grass cart paths
- Chipping Blocks

### Well maintained courses - with almost no maintenance!

Professional golf courses worldwide reap the benefits of FieldTurf surfaces in areas that are subject to constant stress such as the Tee-off area, Practice Courses, Practice Greens and the Driving Range.

The savings on time, effort and costs on maintenance are substantial since FieldTurf surfaces do not require repair and restoration after heavy use or bad weather. Bring in exciting new options with

FieldTurf's 24 hour, all weather golfing action.  
Perfect greens! Perfect courses! Perfect golf!  
Don't let the grass grow under your feet anymore. Go, get FieldTurf!
